CAREER OBJECTIVE

Motivated ECE undergraduate at AVS College of Technology with a strong foundation in Embedded Systems, IoT Design, and Python programming. Seeking internship or entry-level opportunities to apply technical skills and contribute to innovative projects in IoT and automation.

EDUCATION

AVS College of Technology <i>B.E. Electronics and Communication Engineering (CGPA: 8.34/10)</i>	2023 – 2027 Salem, TN
Government Higher Secondary School <i>SSLC (100%) HSC (80%)</i>	2020 – 2023 Malliyakarai, Salem

TECHNICAL SKILLS

Programming: Python, C, Embedded C, MEAN Stack
Hardware/Domains: Arduino, ESP32, 8051, Raspberry Pi, Sensors & Actuators, IoT Prototyping
Tools & Concepts: Arduino IDE, KiCad, Thonny, Git, Microcontrollers, Data Acquisition

ACADEMIC PROJECTS

Smart Home Automation using ESP32 & IoT – Designed an IoT system to control home appliances via mobile application using ESP32 and Blynk. – Integrated DHT11 sensors and relay modules with real-time cloud data logging. – Tech: ESP32, Python, Blynk, Embedded C	July 2025
Image Processing and Fire Detection – Developed an automated fire detection system utilizing computer vision via a Raspberry Pi. – Integrated camera module for real-time monitoring and a buzzer for instant local alerts. – Tech: Raspberry Pi, Python, Open CV, Sensors	April 2026
Gas Leakage Detection via Telegram Bot – Engineered a home safety system to detect gas overflows and notify users instantly via Telegram. – Interfaced IR/Gas sensors with ESP32 to trigger automated alerts. – Tech: ESP32, Embedded C, Telegram Bot API	2025

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to IoT and Embedded Systems (July 2025)
- Completed workshop titled "MEAN Stack Development" (March 2025)
- Presented a Research Paper on **Robotics** at an Intra-college Symposium
- Active Member, ECE Department Association

SOFT SKILLS

Team Collaboration | Problem Solving | Quick Learner | Effective Communication
